Subject: [External] FOIA request

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and are expecting the content. -- WV Office of Technology

To the Department of Revenue and Tax Division:

Please consider this a request made under the West Virginia Freedom of Information Act, W.Va. Code 29B-1-1 et seq.

Please provide us with all correspondence and other records dated Jan. 1, 2019, to today concerning the Pleasants Power Plant, House Bill 207, and efforts/legislation to avoid closure of the plant. This request is meant to include emails as well as other correspondence, reports, proposed legislation, talking points, and any other materials whether written or electronic.

This request is meant to include materials in the custody of the Revenue Department and the Tax Division, and to the extent that your agencies insist on considering them separate requests, I am filing this request with both.

Should you choose to withhold any records please specify what materials are being withheld and which exemption you are claiming. Should any materials contain both exempt and non-exempt material, please provide us with redacted copies, disclosing the non-exempt materials.

We look forward to your response within 5 days.

Contact me if you have any questions about this request.

Ken.

Subject: RE: [External] FOIA request

Mr. Ward,

We are in the process of compiling and reviewing the information that may be responsive to your request. In order to assure that we identify the e-mail messages that are pertinent, we have requested the Office of Technology to search the e-mail records of the employees of the Department of Revenue for the requested period. OT informed me today that they will not be able to provide the assembled data to me for review before early next week due to a high work volume. I am writing to you to request an extension of the FOIA response deadline until Thursday, September 12, 2019, to allow us ample time to appropriately respond to your request. Please let me know if this is agreeable to you. If you have any questions or concerns, please contact me.

Leslie Dillon

Deputy General Counsel

WEST VIRGINIA DEPARTMENT OF REVENUE

Office of the Cabinet Secretary

Mr. Ward,

We are in the process of compiling and reviewing the information that may be responsive to your request. In order to assure that we identify the e-mail messages that are pertinent, we have requested the Office of Technology to search the e-mail records of the employees of the Department of Revenue for the requested period. OT informed me today that they will not be able to provide the assembled data to me for review before early next week due to a high work volume. I am writing to you to request an extension of the FOIA response deadline until Thursday, September 12, 2019, to allow us ample time to appropriately respond to your request. Please let me know if this is agreeable to you. If you have any questions or concerns, please contact me.

Leslie Dillon

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and are expecting the content. -- WV Office of Technology

To the Department of Revenue and Tax Division:

Please consider this a request made under the West Virginia Freedom of Information Act, W.Va. Code 29B-1-1 et seq.

Please provide us with all correspondence and other records dated Jan. 1, 2019, to today concerning the Pleasants Power Plant, House Bill 207, and efforts/legislation to avoid closure of the plant. This request is meant to include emails as well as other correspondence, reports, proposed legislation, talking points, and any other materials whether written or electronic.

This request is meant to include materials in the custody of the Revenue Department and the Tax Division, and to the extent that your agencies insist on considering them separate requests, I am filing this request with both.

Should you choose to withhold any records please specify what materials are being withheld and which exemption you are claiming. Should any materials contain both exempt and non-exempt material, please provide us with redacted copies, disclosing the non-exempt materials.

We look forward to your response within 5 days.

Contact me if you have any questions about this request.

Ken.

Subject: [External] FOIA request

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and are expecting the content. -- WV Office of Technology

Hello,

Under the Freedom of Information Act, I'm seeking the following records from the West Virginia Department of Revenue:

**Any and all correspondence between the Department of Revenue and:
Gov. Jim Justice's office
Pleasants County Commission President Jay Powell,
the Department of Revenue,
anyone from FirstEnergy, and
Chris Hamilton
Speaker Roger Hanshaw,
Delegate Tim Miley
with the words "Pleasants Power Plant" or "Pleasants Power Station" between Oct. 1, 2018 and the day you return this FOIA request.**

If there are any fees for searching or copying these records, please inform me. However, I'd like to request a waiver of all fees, as I am a member of the news media and my request is related to news gathering purposes. This information is not being sought for commercial purposes.

I request that you provide this information digitally in PDF format, or on a CD-ROM.

The WV Freedom of Information Act requires a response to this request be made within five business days. If access to the records I am requesting will take longer than this amount of time, please contact me about when I can expect these records.

If you deny this request, please cite each specific exemption you feel justifies the refusal to release the information and notify me of the appeal procedures available to me under law.

Should you have any questions, please feel free to respond to this email or call 304-348-4843.

Thanks,
Kate Mishkin

Chris,

As I mentioned in my voicemail message, this is a new FOIA request from the Gazette-Mail related to the Pleasants Power Plant which was the issue that you researched (e-mail review for the seven Dept. of Revenue employees) for me around July 25th in response to another Gazette-Mail FOIA request. Please let me know if you have any questions or concerns.

Subject: FOIA request

I tried calling your office but you were apparently away from your desk. I am out of the office working for another agency today, so would you please reply to all and send me the FOIA request you received from the Gazette so I can take a look at it? You're welcome to try to call me at 304-389-0281 (my work cell), but service is really spotty for me today as I'm in the Keyser area. I'll be back in the office tomorrow.

Thanks.

Attachments: BBER-2015-01.pdf

Sorry, one follow up. I see in this WVU BBER report they cite B&O taxes broadly (Figure 14, page 20). Can the Tax Division provide broad B&O collection numbers?

I see that the report cites the WV Budget Office. Is that the appropriate entity to be asking for this data?

Thanks,

Brittany

Brittany:

The Tax Division does not publish B&O tax information.

Your best bet would be to contact the company to see if they will provide it to you.

Thanks,

Kathy

Hi Kathy,

Could you provide me with or point me in the right direction of B&O taxes paid by Pleasants Power Station in the last decade, or as far back as are listed?

Very glad to answer any question you might have.

Thanks,

Brittany

Hi Kathy,

Could you provide me with or point me in the right direction of B&O taxes paid by Pleasants Power Station in the last decade, or as far back as are listed?

Very glad to answer any question you might have.

Thanks,
Brittany

Sorry, one follow up. I see in this WVU BBER report they cite B&O taxes broadly (Figure 14, page 20). Can the Tax Division provide broad B&O collection numbers?

I see that the report cites the WV Budget Office. Is that the appropriate entity to be asking for this data?

Thanks,
Brittany

Subject: [External] FOIA request

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and are expecting the content. -- WV Office of Technology

Hello,

Under the Freedom of Information Act, I'm seeking the following records from the West Virginia Department of Revenue:

**Any and all correspondence between the Department of Revenue and:
Gov. Jim Justice's office
Pleasants County Commission President Jay Powell,
the Department of Revenue,
anyone from FirstEnergy, and
Chris Hamilton**

Speaker Roger Hanshaw,

**Delegate Tim Miley
with the words "Pleasants Power Plant" or "Pleasants Power Station" between Oct. 1, 2018 and the day you return this FOIA request.**

If there are any fees for searching or copying these records, please inform me. However, I'd like to request a waiver of all fees, as I am a member of the news media and my request is related to news gathering purposes. This information is not being sought for commercial purposes.

I request that you provide this information digitally in PDF format, or on a CD-ROM.

The WV Freedom of Information Act requires a response to this request be made within five business days. If access to the records I am requesting will take longer than this amount of time, please contact me about when I can expect these records.

If you deny this request, please cite each specific exemption you feel justifies the refusal to release the information and notify me of the appeal procedures available to me under law.

Should you have any questions, please feel free to respond to this email or call 304-348-4843.

Thanks,
Kate Mishkin

Hello,

Under the Freedom of Information Act, I'm seeking the following records from the West Virginia Department of Revenue:

**Any and all correspondence between the Department of Revenue and:
Gov. Jim Justice's office
Pleasants County Commission President Jay Powell,
the Department of Revenue,
anyone from FirstEnergy, and
Chris Hamilton**

Speaker Roger Hanshaw,

**Delegate Tim Miley
with the words "Pleasants Power Plant" or "Pleasants Power Station" between Oct. 1,
2018 and the day you return this FOIA request.**

If there are any fees for searching or copying these records, please inform me. However, I'd like to request a waiver of all fees, as I am a member of the news media and my request is related to news gathering purposes. This information is not being sought for commercial purposes.

I request that you provide this information digitally in PDF format, or on a CD-ROM.

The WV Freedom of Information Act requires a response to this request be made within five business days. If access to the records I am requesting will take longer than this amount of time, please contact me about when I can expect these records.

If you deny this request, please cite each specific exemption you feel justifies the refusal to release the information and notify me of the appeal procedures available to me under law.

Should you have any questions, please feel free to respond to this email or call 304-348-4843.

Thanks,
Kate Mishkin

Re: FOIA Request, July 24, 2019

Ms. Mishkin:

I am in receipt of your July 24, 2019 Freedom of Information Act request in which you requested copies of any and all correspondence between the Department of Revenue, and the following, which contains the words "Pleasants Power Plant" or "Pleasants Power Station" from October 1, 2018 and this date:

Governor Justice's Office
Jay Powell, Pleasants County Commission President
Representatives of FirstEnergy
Chris Hamilton
Speaker Roger Hanshaw
Delegate Tim Miley

In response to your FOIA request, I have enclosed copies of e-mails between Department of Revenue personnel and various parties. I have not included copies of e-mails that include any confidential tax data as disclosure is prohibited under Section 11-10-5d of the West Virginia Tax Procedure & Administration Act, and working drafts of the proposed B & O tax amendment and any e-mails related to or forwarding the same as they are protected by the deliberative process privilege and would be characterized as predecisional and deliberative, and would also be protected by attorney/client privilege. Also, pursuant to W.Va. Code §11B-1-6, information that would be confidential under the laws of this State when provided to a division, agency, board, commission, or office within the Department of Revenue shall be confidential when that information is provided to the Secretary of Revenue or to an employee of the Secretary.

This completes the Department of Revenue's response to your FOIA request.

Please be advised that the Department of Revenue reserves its rights to assert, as appropriate, any of the FOIA exemptions set forth in West Virginia Code § 29B-1-4, as well as

DEPARTMENT OF REVENUE
OFFICE OF THE SECRETARY

the deliberative process privilege, the attorney-client privilege, and any relevant common law privilege with respect to your FOIA request dated July 24, 2019, and any other FOIA request.

With respect to your FOIA request, you are further advised that you have the right to institute proceedings for injunctive or declaratory relief in the Circuit Court of Kanawha County, West Virginia.

Please let me know if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Leslie Dillon". The signature is fluid and cursive, with the first name "Leslie" and last name "Dillon" clearly distinguishable.

There are comments on this page from First Energy (see toward bottom of page under First Energy comments) about the benefits of moving the Pleasants Power Station to Mon Power. This was ultimately rejected by the PSC. We might want to talk to the Office of Energy and see what they might know about this.

Mr. Short,

Thank you for taking the time to discuss this matter yesterday evening. As I mentioned during our conversation, I am only interested in the public information related to the B&O taxes for the regulated electricity generators that are operated by First Energy or its subsidiaries. It is my understanding that there are three plants, but one (the Pleasants Power Station aka Willow Island) is a merchant plant which is unregulated. We are attempting to vet some figures that were provided by the company. Our time window is very short and any assistance or information that you could provide would be greatly appreciated. If you have any questions, please let me know.

Subject: RE: First Energy
Attachments: Pleasants B&O.pdf

Mr. Dillon,

Attached to the testimony of Raymond Valdes Case No. 17-0296-E-PC (Valdes Testimony begins on Page 225 of the pdf, Exhibit REV-6 is page 253 of the pdf) is a schedule that calculates the Taxes of the Pleasants Power Station. I have attached those relevant pages. Taxes other WVA B&O reported as \$11,744,166 for the year ended December 31, 2016. This should be a fixed number unless an exemption were to apply in a future year.

Therefore I believe that \$11.75 million annually is a representative figure for WVA B&O Tax for the Pleasants Power Station.

Attached is a link to the Public Filing in Case No. 17-0296-E-PC, seeking approval for Monongahela Power to purchase the Pleasants Power Plant.

I have included a link to the entire filing below.

<http://www.psc.state.wv.us/scripts/WebDocket/ViewDocument.cfm?CaseActivityID=468091&NotType='WebDocket'>

Please let me know if you need additional information.

Petition for Approval of a Generation Resource
Transaction and Related Relief
Case No. 17-0096-EPL**

Dear Ms. Ferrell:

Enclosed for filing are the original and 12 copies of a petition for approval of a generation resource transaction and related relief filed by Monongahela Power Company and The Potomac Edison Company. The Petition includes eight separate pieces of direct testimony as exhibits and four other exhibits.

We have also included in a sealed envelope three sets of the confidential versions of the following documents:

- The direct testimony of Jay A. Ruberto;
- The exhibits to Exhibit RJL-1 to the direct testimony of Robert J. Lee; and
- Exhibit TS-1 to the direct testimony of Thomas Sweet.

Public, redacted versions of these documents are included with the Petition.

The Companies respectfully request a Commission decision on this matter by August 21, 2017.

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and are expecting the content. -- WV Office of Technology

§11-13-20. Business of generating or producing or selling electricity on and after June 1, 1995; definitions; rate of tax; exemptions; effective date.

(a) Definitions. -- As used in this section:

(1) "Average four-year generation" is computed by dividing by four the sum of a generating unit's net generation, expressed in kilowatt hours, for calendar years 1991, 1992, 1993 and 1994. For any generating unit which was newly installed and placed into commercial operation after January 1, 1991, and prior to the effective date of this section, "average four-year generation" is computed by dividing the unit's net generation for the period beginning with the month in which the unit was placed into commercial operation and ending with the month preceding the effective date of this section by the number of months in the period and multiplying the resulting amount by twelve with the result being a representative twelve-month average of the unit's net generation while in an operational status.

(2) "Capacity factor" means a fraction, the numerator of which is average four-year generation and the denominator of which is the maximum possible annual generation.

(3) "Generating unit" means a mechanical apparatus or structure which through the operation of its component parts is capable of generating or producing electricity and is regularly used for this purpose.

(4) "Inactive reserve" means the removal of a generating unit from commercial service for a period of not less than twelve consecutive months as a result of lack of need for generation from the generating unit or as a result of the requirements of state or federal law or the removal of a generating unit from commercial service for any period as a result of any physical exigency which is beyond the reasonable control of the taxpayer.

(5) "Maximum possible annual generation" means the product, expressed in kilowatt hours, of official capability times eight thousand seven hundred sixty hours.

(6) "Official capability" means the nameplate capacity rating of a generating unit expressed in kilowatts.

(7) "Peaking unit" means a generating unit designed for the limited purpose of meeting peak demands for electricity or filling emergency electricity requirements.

(8) "Retired from service" means the removal of a generating unit from commercial service for a period of at least twelve consecutive months with the intent that the unit will not thereafter be returned to active service.

(9) "Taxable generating capacity" means the product, expressed in kilowatts, of the capacity factor times the official capability of a generating unit, subject to the modifications set forth in subdivisions (2) and (3), subsection (c) of this section.

(10) "Net generation" for a period means the kilowatt hours of net generation available for sale generated or produced by the generating unit in this state during the period less the following:

(A) Twenty-one twenty-sixths of the kilowatt hours of electricity generated at the generating unit and sold during the period to a plant location of a customer engaged in manufacturing activity if the contract demand at the plant location exceeds two hundred thousand kilowatts per hour in a year or where the usage at the plant location exceeds two hundred thousand kilowatts per hour in a year;

(B) Twenty-one twenty-sixths of the kilowatt hours of electricity produced or generated at the generating unit during the period by any person producing electric power and an alternative form of energy at a facility located in this state substantially from gob or other mine refuse;

(C) The total kilowatt hours of electricity generated at the generating unit exempted from tax during the period by subsection (b), section two-n of this article.

(b) Rate of tax. -- Upon every person engaging or continuing within this state in the business of generating or producing electricity for sale, profit or commercial use, either directly or indirectly through the activity of others, in whole or in part, or in the business of selling electricity to consumers, or in both businesses, the tax imposed by section two of this article shall be equal to:

(1) For taxpayers who generate or produce electricity for sale, profit or commercial use, the product of \$22.78 multiplied by the taxable generating capacity of each generating unit in this state owned or leased by the taxpayer, subject to the modifications set forth in subsection (c) of this section: Provided, That with respect to each generating unit in this state which has installed a flue gas desulfurization system, the tax imposed by section two of this article shall, on and after January 31, 1996, be equal to the product of \$20.70 multiplied by the taxable generating capacity of the units, subject to the modifications set forth in subsection (c) of this section: Provided, however, That with respect to kilowatt hours sold to or used by a plant location engaged in manufacturing activity in which the contract demand at the plant location exceeds two hundred thousand kilowatts per hour per year or if the usage at the plant location exceeds two hundred thousand kilowatts per hour in a year, in no event shall the tax imposed by this article with respect to the sale or use of the electricity exceed five hundredths of 1¢ times the kilowatt hours sold to or used by a plant engaged in a manufacturing activity; and

(2) For taxpayers who sell electricity to consumers in this state that is not generated or produced in this state by the taxpayer, nineteen hundredths of 1¢ times the kilowatt hours of electricity sold to consumers in this state that were not generated or produced in this state by the taxpayer, except that the rate shall be five hundredths of 1¢ times the kilowatt hours of electricity not generated or produced in this state by the taxpayer which is sold to a plant location in this state of a customer engaged in manufacturing activity if the contract demand at such plant location exceeds two hundred thousand kilowatts per hour per year or if the usage at such plant location exceeds two hundred thousand kilowatts per hour in a year. The measure of tax under this subdivision shall be equal to the total kilowatt hours of electricity sold to consumers in the state during the taxable year, that were not generated or produced in this state by the taxpayer, to be determined by subtracting from the total kilowatt hours of electricity sold to consumers in the state the net kilowatt hours of electricity generated or produced in the state by the taxpayer during the taxable year. For the purposes of this subdivision, net kilowatt hours of electricity generated or produced in this state by the taxpayer includes the taxpayer's pro rata share of electricity generated or produced in this state by a partnership or limited liability company of which the taxpayer is a partner or member. The provisions of this subdivision shall not apply to those kilowatt hours exempt under subsection (b), section two-n of this article. Any person taxable under

this subdivision shall be allowed a credit against the amount of tax due under this subdivision for any electric power generation taxes or a tax similar to the tax imposed by subdivision (1) of this subsection paid by the taxpayer with respect to the electric power to the state in which the power was generated or produced. The amount of credit allowed may not exceed the tax liability arising under this subdivision with respect to the sale of the power.

(c) The following provisions are applicable to taxpayers subject to tax under subdivision (1), subsection (b) of this section:

(1) Retired units; inactive reserve. -- If a generating unit is retired from service or placed in inactive reserve, a taxpayer may not be liable for tax computed with respect to the taxable generating capacity of the unit for the period that the unit is inactive or retired. The taxpayer shall provide written notice to the Joint Committee on Government and Finance, as well as to any other entity as may be otherwise provided by law, eighteen months prior to retiring any generating unit from service in this state.

(2) New generating units. -- If a new generating unit, other than a peaking unit, is placed in initial service on or after the effective date of this section, the generating unit's taxable generating capacity shall equal forty percent of the official capability of the unit: Provided, That the taxable generating capacity of a county- or municipally owned generating unit shall equal zero percent of the official capability of the unit and for taxable periods ending on or before December 31, 2007, the taxable generating capacity of a generating unit utilizing a turbine powered primarily by wind shall equal five percent of the official capability of the unit: Provided further, That for taxable periods beginning on or after January 1, 2008, the taxable generating capacity of a generating unit utilizing a turbine powered primarily by wind shall equal twelve percent of the official capability of the unit.

(3) Peaking units. -- If a peaking unit is placed in initial service on or after the effective date of this section, the generating unit's taxable generating capacity shall equal five percent of the official capability of the unit: Provided, That the taxable generating capacity of a county- or municipally owned generating plant shall equal zero percent of the official capability of the unit.

(4) Transfers of interests in generating units. -- If a taxpayer acquires an interest in a generating unit, the taxpayer shall include the computation of taxable generating capacity of the unit in the determination of the taxpayer's tax liability as of the date of the acquisition. Conversely, if a taxpayer transfers an interest in a generating unit, the taxpayer may not for periods thereafter be liable for tax computed with respect to the taxable generating capacity of the transferred unit.

(5) Proration, allocation. -- The Tax Commissioner shall promulgate rules in conformity with the provisions of article three, chapter twenty-nine-a of this code to provide for the administration of this section and to equitably prorate taxes for a taxable year in which a generating unit is first placed in service, retired or placed in inactive reserve, or in which a taxpayer acquires or transfers an interest in a generating unit, to equitably allocate and reallocate adjustments to net generation, and to equitably allocate taxes among multiple taxpayers with interests in a single generating unit, it being the intent of the Legislature to prohibit multiple taxation of the same taxable generating capacity.

So as to provide for an orderly transition with respect to the rate making effect of this section, those electric light and power companies which, as of the effective date of this section, are permitted by the West Virginia Public Service Commission to utilize deferred accounting for purposes of recovery from ratepayers of any portion of business and occupation tax expense under this article shall be permitted, until the time that action pursuant to a rate application or order of the commission provides for appropriate alternative rate-making treatment for such expense, to recover the tax expense imposed by this section by means of

deferred accounting to the extent that the tax expense imposed by this section exceeds the level of business and occupation tax under this article currently allowed in rates.

(6) Electricity generated by manufacturer or affiliate for use in manufacturing activity. -- When electricity used in a manufacturing activity is generated in this state by the person who owns the manufacturing facility in which the electricity is used and the electricity-generating unit or units producing the electricity so used are owned by the manufacturer, or by a member of the manufacturer's controlled group, as defined in Section 267 of the Internal Revenue Code of 1986, as amended, the generation of the electricity may not be taxable under this article: Provided, That any electricity generated or produced at the generating unit or units which is sold or used for purposes other than in the manufacturing activity shall be taxed under this section and the amount of tax payable shall be adjusted to be equal to an amount which is proportional to the electricity sold for purposes other than the manufacturing activity. The Department of Revenue shall promulgate rules in accordance with article three, chapter twenty-nine-a of this code: Provided, however, That the rules shall be promulgated as emergency rules.

(d) Beginning June 1, 1995, electric light and power companies that actually paid tax based on the provisions of subdivision (3), subsection (a), section two-d of this article or section two-m of this article for every taxable month in 1994 shall determine their liability for payment of tax under this article in accordance with subdivisions (1) and (2) of this subsection. All other electric light and power companies shall determine their liability for payment of tax under this article exclusively under this section beginning June 1, 1995, and thereafter.

(1) If for taxable months beginning on or after June 1, 1995, liability for tax under this section is equal to or greater than the sum of the power company's liability for payment of tax under subdivision (3), subsection (a), section two-d of this article and this section, then the company shall pay the tax due under this section and not the tax due under subdivision (3), subsection (a), section two-d of this article and section two-m of this article. If tax liability under this section is less than the tax shall be paid under subdivision (3), subsection (a), section two-d of this article and section two-m of this article and the tax due under this section may not be paid.

(2) Notwithstanding subdivision (1) of this subsection, for taxable years beginning on or after January 1, 1998, all electric and light power companies shall determine their liability for payment of tax under this article exclusively under this section.

Subject: numbers

Here are the numbers I plan to send to Amy Willard tomorrow.

Big increases in certain oil & gas counties.

A few counties getting bumped up from non-utility pipeline (soon to be utility) pipe lying on the ground or being laid.

Pleasants County down due to that Pleasants Power Plant closing soon.

Hi Kathy,

Could you provide me with or point me in the right direction of B&O taxes paid by Pleasants Power Station in the last decade, or as far back as are listed?

Very glad to answer any question you might have.

Thanks,
Brittany

Attachments: 2012 Disclosure Report 11-10-5s Updated.pdf

Mark

Attached is an updated copy of the 2012 Disclosure 11-10-5s. Jeanette went through it and reviewed punctuation and spelling. For now, I am including the 'note or forward' which the Commissioner updated for the last report. I have sent a note to Alisha requesting confirmation that this is what the commissioner wants. I did update the 'forward' to include the mine safety and commercial patent credits for 2012, but the entire 'tax credits subject to disclosure' section should be reviewed. I was unsure whether any of the expired credits should be removed- particularly those with no offsets. I believe I already sent you the 2012 NIPA. Let me know if I didn't. I will work on the accompanying letters next.

Thanks Nancy

Hi Alicia

Attached are the 2012 Disclosure Reports and associated letters. I retained the prefaces which the Commissioner prepared for the last reports, but I updated them for 2012. Let me know if you have any questions.

Thanks Nancy

1900 Kanawha Blvd. East
Charleston, West Virginia 25305-0770

Dear Secretary Warner:

The attachments include the 2012 West Virginia Tax Credit Disclosure List and explanatory notes for the Neighborhood Investment Program. Section 11-13J-10 of the West Virginia Code provides an exception to the confidentiality of Taxpayer information relating to this Program. This section requires the State Tax Commissioner to "publish in the state register the name of every taxpayer asserting this credit on a tax return, and the amount of any credit asserted on a tax return."

If you have any questions, please advise.

Sincerely,

Dale W. Steager
State Tax Commissioner

DWS/nls

WEST VIRGINIA TAX CREDIT DISCLOSURE LIST

2012 REPORT

As Required by West Virginia Code §11-10-5s(b)

Release Date: TBD

TAX CREDIT DISCLOSURE

West Virginia Code §11-10-5s(b) provides for certain exceptions to the confidentiality of Taxpayer information in an effort to balance the privacy rights of Taxpayers with "the citizens' right to accountable and efficient state government." This section requires the State Tax Commissioner to "publish in the state register the name and address of every taxpayer, and the amount, by category, of any credit asserted on a tax return." The law is first effective for any tax year beginning on or after July 1, 1991.

The Law provides for the following tax credit utilization categories:

- More than \$1, but less than \$50,000
- More than \$50,000, but less than \$100,000
- More than \$100,000, but less than \$250,000
- More than \$250,000, but less than \$500,000
- More than \$500,000, but less than \$1,000,000
- More than \$1,000,000

The following tax credits are subject to disclosure in 2012:

- Capital Company Credit (§5E-1)
- Commercial Patent Incentive Credit (§11-13AA)
- Innovative Mine Safety Credit (§11-13BB)
- Business Investment and Jobs Expansion Credit (§11-13C)
- Aerospace Industrial Facility Credit (§11-13D-3f)
- Industrial Expansion or Revitalization Credit (§11-13D-4)
- Research and Development Projects Credit (§11-13D-5)
- Residential Housing Development Projects Credit (§11-13D-5a)
- Coal Loading Facilities Credit (§11-13E)
- Credit for Reducing Electric and Natural Gas Utility Rates for Low-Income Residential Customers (§11-13F)
- Credit for Reducing Telephone Utility Rates for Certain Low-Income Residential Customers (§11-13G)
- Economic Opportunity Tax Credit (§11-13Q)
- Strategic Research and Development Tax Credit (§11-13R)
- Manufacturing Investment Tax Credit (§11-13S)
- Manufacturing Property Tax Adjustment Credit (§11-13Y)
- High-Growth Business Investment Tax Credit (§11-13U)
- Film Industry Investment Credit (§11-13X)
- Credit for Qualified Rehabilitated Buildings Investment (§§11-21-8a through 8f and 11-24-23a through 23f)
- Credit for Qualified Rehabilitated Residential Building Investment (§§11-21-8g)

The following is a compilation of Taxpayers by credit type, credit utilization category, and tax type for the 2012 tax credit year. The 2012 information includes all tax years beginning on or after July 1, 2011 but prior to July 1, 2012. The credit information generally comes from annual tax returns as filed by the Taxpayer. However,

in cases where no annual return is required or where no annual return was filed, the data come from other returns filed (e.g., monthly tax return) for the Taxpayer's tax year.

The disclosed information generally comes from tax returns as filed. This disclosure does not interfere with the State Tax Department's right to conduct future internal or external audits of these returns.

In a time-sensitive project of this magnitude, there may be some errors in data transmission. We apologize in advance for any error that may result in the misclassification of a Taxpayer.

Note: West Virginia Code provides that Taxpayers have a period of three (3) years from the due date of a tax return to finalize the return (see W. Va. Code §11-10-14(l)(1)). For example, an income tax return for the Tax Year ended December 31, 2012 on normal extension is due on either September 15, 2013 (C-Corporations) or on October 15, 2013 (Personal Income Tax). Under the three-year statute of limitations, a tax credit must be claimed on such return by no later than September 15, 2016 or October 15, 2016, respectively. Credit disclosure information is incomplete until all such returns are filed and the information checked for accuracy.

WEST VIRGINIA TAX CREDIT DISCLOSURE LIST
Neighborhood Investment Program

2012 REPORT

As Required by West Virginia Code §11-13J-10

Release Date: TBD

TAX YEAR 2012 DISCLOSURE

Years Beginning on or After July 1, 2011 but Before July 1, 2012

The following is a compilation of Taxpayers by tax type for the 2012 tax credit year. The 2012 information includes all tax years beginning on or after July 1, 2011 but prior to July 1, 2012. The credit information generally comes from annual tax returns as filed by the Taxpayer.

The disclosed information generally comes from tax returns as filed. This disclosure does not interfere with the State Tax Department's right to conduct future internal or external audits of these returns.

In a time-sensitive project of this magnitude, there may be some errors in data transmission. We apologize in advance for any error that may result in the misclassification of a Taxpayer.

Note – West Virginia State Code provides that taxpayers have a period of three (3) years from the due date of a tax return to finalize the return (§11-10-14(l)(1)). For example, an income tax return for the tax year ending December 31, 2012 on normal extension is due on either September 15, 2013 (C Corporation) or on October 15, 2013 (Personal Income Tax). Under the three-year statute of limitations, a tax credit must be claimed on such return by no later than September 15, 2016 or October 15, 2016, respectively. Credit disclosure information is incomplete until all such returns are filed and the information checked for accuracy.

Subject: Proposed Amendment

Berkeley,

The focus of the proposed legislation is to eliminate the B and O tax on merchant power plants. In this case a merchant power plant is one which sells power onto the grid and does not sell directly to consumers. Based upon the assertions of the First Energy representatives, it's my understanding that the proposed legislation would only affect the Pleasants Power Station. At present the Pleasants power station is slated to close and the company is hoping to revive yet so to speak. The company has asked for a tax reduction in order want to allow the plant to be competitive. There are several other power plants in the state which sell directly to consumers and those are able to pass the B and O tax onto customers via the rate-making process with the PSC. I hope this provide some understanding. If you have any questions or concerns, please let me know.

Leslie

Subject: RE: RE: FOIA request

When they searched the emails, they searched all of the Cabinet Secretary's group (the seven of you) for "Pleasants Power Plant" and "Pleasants Power Station". The results may include more senders and recipients than requested (Hanshaw, Hamilton, Miley, etc.), so you'll want to review the individual emails. Judging by the sizes of the email files, there won't be many results.

The files are now on your desktop in a folder named "FOIA results". To review the emails:

Open Outlook

Click File -> Open & Export -> Open Outlook Data File

Select the PST file from your desktop folder (Investigation i1462)

The mailbox will open in the left pane toward the bottom, named "Exchange". You'll have to expand the folders and click on the small triangle in front of each folder name in order to view the contents.

I'm going out to run a few errands, but I can help later via a Skype session or stop by your office if needed. I want to make sure you're able to get to the files today as I am out the rest of the week.

The files are ready, so let's see if I can transfer them to you.

I need some info from your computer:

Click the Windows icon in the lower left of the screen

In the white box, type in cmd and hit enter

At the command prompt, type in ipconfig and hit enter

Send me the IPv4 address and your user ID

Subject: FOIA request

Chris,

The Cabinet Secretary's Office is comprised of the following:

1. Dave Hardy
2. Mark Muchow
3. Allen Prunty
4. Kathy Torlone
5. Courtney Shamblin
6. Laura Boggess
7. Leslie Dillon

Thank you for the help!

Leslie Dillon
